CLAIMS

What is claimed is:

1. A method comprising:

maintaining digital records of software licenses for multiple groups, the digital records

indicating rights associated with software licenses;

accessing a group administration application to set the access rules for members of a

group, the access rules controlling the access of digital record data of the group by members of

the group; and

using the access rules to determine whether to allow a member of the group to access

digital record data.

2. The method of claim 1, wherein the access rules can be set to allow some group members

to see but not to modify the software license data.

3. The method of claim 1, wherein the access rules can be set to restrict access based upon

inputted field information to some group members.

4. The method of claim 3, wherein the inputted field information is a department field and

the access rules are such that some group members can only access software license information

associated with their department.

5. The method of claim 1, wherein the group administration application can be used to

require group members to input field data.

6. The method of claim 1, wherein selected access rules can allow a group member to

access a digital record and adjust the rights associated with the software license.

7. The method of claim 1, wherein the group administration application is adapted to allow

the production of reports concerning the software licenses of the group.

8. The method of claim 1, wherein the group administration application is part of a web

based application.

9. The method of claim 8, wherein the web application uses role based security.

10. The method of claim 1, wherein configuration information for the computers running the

software are stored in the digital records.

11. A license management system comprising:

a memory adapted to store digital records of software licenses for multiple groups, the

digital records indicating rights associated with a software licenses; and

a processor adapted to execute a group administration application for setting the access

rules for members of a group, the rules controlling the access of digital record data of the group

by members of the group, wherein the access rules are used to determine whether to allow a

member of the group to access digital record data.

12. The license management system of claim 11, wherein the access rules can be set to allow

some group members to see but not to modify the software license data.

13. The license management system of claim 11, wherein the access rules can be set to

restrict access based upon inputted field information to some group members.

14. The license management system of claim 13, wherein the inputted field information is a

customer defined field and the access rules are such that some group members can only access

software license information associated with the customer definition.

15. The license management system of claim 11, wherein the group administration

application can be used to require group members to input field data.

Attorney Docket No.: BEAS-01454US2 SRM/JPO JOmalley/Beas/01454US2.application for utility.doc

16. The license management system of claim 11, wherein selected access rules can allow a

group member to access a digital record and adjust the rights associated with the software

license.

17. The license management system of claim 11, wherein the group administration

application is adapted to allow the production of reports concerning the software licenses of the

group.

18. The license management system of claim 11, wherein the group administration

application is part of a web based application.

19. The license management system of claim 18, wherein the web application uses role based

security.

20. The license management system of claim 1, wherein configuration information for the

computers running the software are stored in the digital records.

21. A computer readable media comprising software to instruct a computer to do the steps of:

maintaining digital records of software licenses for multiple groups, the digital records

indicating rights associated with software licenses;

in response to input to a group administration application, setting the access rules for

members of a group, the access rules controlling the access of digital record data of the group by

members of the group; and

using the access rules to determine whether to allow a member of the group to access

digital record data.

22. The computer readable media of claim 21, wherein the access rules can be set to allow

some group members to see but not to modify the software license data.

23. The computer readable media of claim 21, wherein the access rules can be set to restrict

access based upon inputted field information to some group members.

Attorney Docket No.: BEAS-01454US2 SRM/JPO JOmalley/Beas/01454US2.application for utility.doc

24. The computer readable media of claim 23, wherein the inputted field information is a

department field and the access rules are such that some group members can only access

software license information associated with their department.

25. The computer readable media of claim 21, wherein the group administration application

can be used to require group members to input field data.

26. The computer readable media readable media of claim 21, wherein selected access rules

can allow a group member to access a digital record and adjust the rights associated with the

software license.

27. The computer readable media of claim 21, wherein the group administration application

is adapted to allow the production of reports concerning the software licenses of the group

28. The computer readable media of claim 21, wherein the group administration application

is part of a web based application.

29. The computer readable media of claim 28, wherein the web application uses role based

security.

30. The computer readable media of claim 21, wherein configuration information for the

computers running the software are stored in the digital records.

Attorney Docket No.: BEAS-01454US2 SRM/JPO JOmalley/Beas/01454US2.application for utility.doc
